

Prevent Blindness

Art Therapy Program

For People with Thyroid Eye Disease and their Care Partners

Who?

Individuals with Thyroid Eye Disease and their care partners (spouses, family members, friends, loved ones).

What?

- Eight (8) weekly 2-hour virtual sessions to create art using a variety of artistic media.
- Explore art therapy as a way to cope with feelings of isolation, anxiety and depression.
- Discover an opportunity to build community and connections with other people who are affected by TED and express thoughts and feelings through art.

When?

Spring Series Scheduled: April 27 - June 24, 2023

Fall Series Planned: September 21 - November 11, 2023
